Maybe I can't
playing with you
anymore. Let's
play a game :-

Yikes that...
was a little -

Okay, get away.
I am mad :-

Meow ♥
(Play with me,
play with me)

바라다-

I... I will play
with you, and queen

One of more expensive
cat toys!

A fake must supposedly

Screen text:
"Don't know"

It won't get any more like completion if I don't play with her. And when I do play with her she ignores me.

You have no idea
how it feels like to
be ignored by a cat.

Yeah, yeah, wait and
listen that soon and get
ignored by G-Dragon.
I'd love to see that

... Internal bleeding ...

Happens somewhat often nowadays ...

*You have to find a way to
enjoy the pain/bleeds ...
(Dexter smiles)*

"Bread" pose, what about it ?

Cats often try to
stretch their body as
much as possible.

and remain like
for a long time

The pose looks fairly identical to a bread, so
it is called "bread pose" or "baking pose"

When you look at the
pose from below ...
(Use a glass table)

It looks ... amazingly
uncomfortable. Don't they get
cramps ?
